

Optimize Life for Your Aging Parents and You

Avoid costly mistakes with your aging parents. You can handle those large projects at work with no sweat. Dealing with aging parents can be totally different when you factor in the emotional roller coaster, their resistance to change, and an unknown end date. You won't see the curve balls coming at you until it's too late. This book helps you think about what is the right answer now for you and your parents. What is the next step? Many of the options can be expensive. I share my experiences and others' choices along with the emotional, financial, legal, and medical aspects of aging. The reality is your parents will die. This might not be an easy path as they decline. You will deal with caregivers, doctors, death, funerals, and grief. It is critical you create a life line and support team to help you through the difficult times before their death and after. Take action now to optimize life for your aging parents and you. Be kind to your children! As you become the aging parents, implement my suggestions and make life easier for you and your children. I am not a trained expert, but I have handled many issues in dealing with my aging mother for sixteen years and observed her friends. Learn from my experiences and what my friends shared. This book will guide you through the aging process with your parents.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
