

Confidence to Care [U.K. Edition]: A Resource for Family Caregivers Providing Alzheimers Disease or Other Dementias Care at Home

Confidence to Care is the essential handbook for the family caregiver offering practical insights to understanding, managing and preventing the behavioral symptoms associated with dementia and Alzheimers disease. Touching, personal stories come together with practical and easy-to-access tips and techniques drawn from decades of caregiving experience by internationally-recognized experts. This cutting-edge resource will help the family caregiver confidently deal with the most common issues associated with dementia. In addition, advice about how to care for yourself while caring for others is essential. The number of people worldwide living with dementia illnesses such as Alzheimers disease is set to nearly double every 20 years, reaching 65.7 million in 2030 and 115.4 million in 2050, according to Alzheimers Disease International (ADI). Though research continues, there is currently no cure for Alzheimers disease. But until there is a cure, there is care. Confidence to Care includes chapters offering caregiving strategies and recommends other resources for the family caregiver. This book is the most practical dementia care tool available and unique in its content and presentation.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just to good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
