

## The Whales Know: A Journey through Mexican California (Literary Travellers)

Following in the footsteps of John Steinbeck, Cacucci travels through endless expanses of desert, salt mountains and rows of cacti with thorns so sharp that they can impale thirsty birds... Written with humour and heart, this is an insight into an ecosystem under threat and he describes the landscape and its inhabitants with compassion and respect.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
