

NLP A Changing Perspective

NLP A Changing Perspective offers readers an in-depth look at how Neuro-Linguistic Programming (NLP), creates powerful long lasting changes in both our interpersonal communication and our relationship within ourselves. Since 1981, the authors, Rachel Hott, PhD and Steven Leeds, L.M.H.C., co-directors of The NLP Center of New York, have been living and breathing NLP, incorporating it into their NLP training, psychotherapy/coaching practices, their marriage and parenting. With this book they bring a wealth of experience and a personal humorous touch to an exacting science. NLP is a model and a methodology that has been transforming the lives of people all over the world. Through the study of NLP we learn how to take responsibility for the impact we are having in the world. It is about recognizing how we limit our potential by discovering choices that had not previously been available to us. The book will take you on a journey through the NLP territory where you will be learning about the specific skills and techniques for personal and professional development that are part of an NLP Coach Practitioner Certification Training. In each chapter you will be given exercises to practice to hone your learning step by step. This book is an essential read for anyone pursuing personal and professional development in enhancing his/her communication skills. It is especially relevant for coaches, psychotherapists, health care professionals as well as business professionals, managers, sales people, body workers, artists, lawyers, educators and IT workers.
