

## Traffic Safety

Book Description Traffic Safety applies the methods of science to better understand one of the worlds most pressing public health problems. More than a million people are killed annually in traffic worldwide. This 2004 book is even better than the authors 1991 classic Traffic Safety and the Driver. The present book covers many safety policy topics. Traffic Safety goes to the heart of the problem, with unconstrained analyses of the inadequacies of government in one of its chief responsibilities to protect life. A dramatic development since the earlier book is that the United States has fallen far behind other countries in traffic safety. Prior to the mid 1960s, the US had the worlds safest traffic. By 2002 it had dropped from first to sixteenth place in deaths per registered vehicle, and from first to tenth place in deaths for the same distance of travel. Over 200,000 more Americans were killed in traffic than would have died if the US had matched the safety progress in such better performing countries as Britain, Canada, or Australia. This topic is treated in detail, and explanations are offered for the ongoing US failure.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just to good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
