The most important book by one of the outstanding military authorities of our time. Library Journal This is the classic book on war as we know it. During his long life, Basil H. Liddell Hart was considered one of the worlds foremost military thinkers--a man generally regarded as the Clausewitz of the 20th century. Strategy is a seminal work of military history and theory, a perfect companion to Sun-tzus The Art of War and Carl von Clauswitzs On War. Liddell Hart stressed movement, flexibility, and surprise. He saw that in most military campaigns dislocation of the enemys psychological and physical balance is prelude to victory. This dislocation results from a strategic indirect approach. Reflect for a moment on the results of direct confrontation (trench war in WW I) versus indirect dislocation (Blitzkreig in WW II). Liddell Hart is also tonic for business and political planning: just change the vocabulary and his concepts fit.
