

## On Your Own Two Feet: Steady Steps to Womens Financial Independence

A man is not a financial plan. So says investor and entrepreneur Kim Kiyosaki. Australian financial adviser Helen Baker couldn't agree more. In *On Your Own Two Feet: Steps Towards Financial Independence*, Helen Baker blends the financial wisdom gained in her years as an accredited financial adviser with emotional awareness of how ages, stages and experiences in women's lives influence money matters and that all present unique challenges for which there is no one size fits all solution. Helen's goal is for women to be the best they can, including financially. That, she knows, comes with control and certainty. Both require knowledge. Within these pages, she reveals: - five financial fundamentals no woman can get away without - how doing smart things early over a long time minimises risk while growing wealth - the 10 biggest mistakes women make in divorce settlements - survival tips for redundancy or when two becomes three in a household - understanding aged care - how to handle an inheritance or set one up so that your wishes truly are seen through - and much, much more. *On your own two feet* is a book about personal finance, simplified for Australian women of all ages: mothers, sisters, grandmothers, daughters and girlfriends. No woman's personal financial literacy is complete without the sensible personal finance tips and case studies presented in this easy-to-read format.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
