

## Sport Across Asia: Politics, Cultures, and Identities (Routledge Research in Sport, Culture and Society)

This book is designed to reflect both our current knowledge regarding sport, globalisation and encounters with several important post-colonial or non-western societies and to draw together scholars from a range of different disciplines. Case studies of cultural encounters in Central, South-East Asia, Asia Minor and the Arabian peninsula capture the paradoxical processes of emulation, resistance and transformation that are at work in the diffusion and development of sport and body cultures. These case studies bring together insights from anthropology, cultural studies, geography, history, law, sociology, various area and post-colonial studies.

So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
