

Darkened Light

Description Darkened Light is an epic tour-de-force of a book, an awakening for people who do not understand the mind of a manic depressive. In this book Susan explains the past hardships of her life. She has lived a true rollercoaster of a life with both periods of manic euphoria and periods of suicidal depression. Susans language reflects her state of mind, illustrated with dozens of her own drawings and paintings; she describes in the minutest of details the thoughts that whirl around her head. Susan is obviously a very strong and brave woman - this is a strong and brave book.

About the Author The pictures I have drawn for my book show my thoughts, feelings, emotions and sentiments. I describe myself as a dark, mysterious, secretive person. I have had thoughts that I might have been a Viking in a past life, I have tough, violent traits. Three psychiatrists have diagnosed me as suffering from bipolar depression. During my manic phases I overestimate my personal ability. I become deceitful; see a side to me that is manipulative and crafty. At these times I do not have a conscience. I want to be bad. At other times I am overtaken by a great euphoria. I become obsessed about something; I have delusions about whatever Im obsessive about. Thoughts and ideas preoccupy my mind and I lose touch with reality. I seem to paint more when I am manic, many of my pictures are similar or on a similar theme.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
