

# In Defence of Atheism: The Case Against Christianity, Judaism and Islam

In the twenty-first century, religion is making a comeback, bringing in its wake extremism of all kinds. From Christian anti-abortion campaigns to suicide bombers claiming the righteousness of Islam, we are witnessing a resurgence of fundamentalism. Michel Onfray's response to the threat of a post-modern theocracy is to lay down the principles of an authentic atheism: exposing the fiction that is God, he proposes instead a new philosophy of reason that celebrates life and humanity. In *Defence of Atheism* demonstrates that organised religion is motivated by worldly, historical and political power; that the three dominant monotheisms - Christianity, Islam and Judaism - exhibit the same hatred of women, reason, the body, the passions; that religion denies life and glorifies death. Onfray exposes some uncomfortable truths: Judaism invented the extermination of a people; Jesus never existed historically; Christianity was enforced with extreme violence by Constantine; Islam is anti-Semitic, misogynist, warlike and incompatible with the values of a modern democracy.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
