

## The Problem with God: Why Atheists, True Believers, and Even Agnostics Must All Be Wrong

Whether people praise, worship, criticize, or reject God, they all presuppose at least a rough notion of what it means to talk about God. Turning the certainty of this assumption on its head, a respected educator and humanist shows that when we talk about God, we are in fact talking about nothing at all—there is literally no such idea—and so all of the arguments we hear from atheists, true believers, and agnostics are and will always be empty and self-defeating. Peter J. Steinberger's commonsense account is by no means disheartening or upsetting, leaving readers without anything meaningful to hold on to. To the contrary, he demonstrates how impossible it is for the common world of ordinary experience to be all there is. With patience, clarity, and good humor, Steinberger helps readers think critically and constructively about various presuppositions and modes of being in the world. By coming to grips with our own deep-seated beliefs, we can understand how traditional ways asserting, denying, or even just wondering about God's existence prevent us from seeing the truth—which, it turns out, is far more interesting and encouraging than anyone would have thought.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
