

The Phantom King (Kings)

Siobhan Ashdown was born of magic; it rides her blood like a phantom, tainted and dark and unpredictable. She is a warlock, and the power within her is unlike any before known to her kind. So its no surprise that the most powerful of the demons who feed off of this warlock magic not only recognizes the enormous potential she represents but determines that he will possess her at any cost. Even if it means war with the entire supernatural world.

Thanatos has ruled Purgatory as the Phantom King since time immemorial. King of a vast plane of solitude, he is a free spirit, a lone rider, a tattooed man of wind and dust and nonexistent boundaries. Then he turns around one morning to find himself face to face with Siobhan Ashdown, a woman with hair as red and wild as his soul, eyes like melted gold, and a spirit as elusive as his own. Time stops, the world tilts, and the fact that she attacks him right off the bat does little to deter his romantic convictions-or his desire to sink his fangs into her neck. Thirteen Kings are severed by lust and greed, an ancient vampire and his rogue creation lay claim to what is not theirs, the whisperings of war begin to shake the foundation of the supernatural world, and primordial evil awakens from its slumber to slither across the land in this second installment in Heather Killough-Waldens Kings series.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
