

## ASQ-3™ Learning Activities

Enhance the growth and development of infants and young children with more than 400 fun, fast, and easy-to-use learning activities now in a new edition specially developed to complement ASQ-3. Perfect for sharing with parents of children who are developing typically or need nonintensive support in one or more developmental areas, these playful, developmentally appropriate activities encourage progress in the same five developmental areas as ASQ-3: communication, gross motor, fine motor, problem solving, and personal-social. Use safe, age-appropriate materials that most families have at home to help even the youngest children develop crucial early language and literacy skills. These activities promote closer parent-child interactions and serve as a natural follow-up for children who score in the ASQ-3 monitoring zone. New additions include a new set of activities for 0-2 months; more than 30+ activities per age range; more language and literacy activities; more language modeling for parents; easy-to-email PDF format to share with parents; more differentiation of activities by age; and activities are now in color on the CD-ROM. Plus, the book includes a keycode for accessing the activities in your ASQ Online account. Now packaged as a book and CD-ROM together so you can photocopy or print them as needed, these creative, cost-effective activities are the perfect way for parents and children to learn and have fun together. Learn more about the complete ASQ-3 system. See which domain of school readiness in the Head Start Child Development and Early Learning Framework this book addresses.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days

the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
