

The Cricket Field

The Game of Cricket, in some rude form, is undoubtedly as old as the thirteenth century. But whether at that early date Cricket was the name it generally bore is quite another question. For Club-Ball we believe to be the name which usually stood for Cricket in the thirteenth century; though, at the same time, we have some curious evidence that the term Cricket at that early period was also known. But the identity of the game with that now in use is the chief point; the name is of secondary consideration. Games commonly change their names, as every school-boy knows, and bear different appellations in different places.
