

Free Your Inner Artist: using your feelings, courage and imagination

Free Your Inner Artist explains why your inner artist may be dormant and suggests ways of identifying and overcoming barriers. It debunks the myth that training is essential to be an artist, and offers alternative ways of releasing the creative power that exists naturally within each and every one of us. Allowing yourself to be creative can help you see things differently and make you happier, more alert and better able to capture memories, release feelings and interpret dreams. It can also encourage relaxation, help you rebalance your equilibrium in times of adversity and enable you to make better sense of life.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
