

FlowDreaming: A Radical New Technique for Manifesting Anything You Want

This beautiful hardcover book comes with an instructional CD to teach you the art of Flowdreaming. Author Summer McStravick pioneered this fascinating technique that rolls the best of meditation, affirmations, self-hypnosis, prayer, and creative visualization into a powerful technique that can turn anyone into a true manifestor. This step-by-step instructional book, which includes a full-length introductory Flowdreaming CD, shows you how to find the Flowa place accessible in our minds, where our quantum reality emerges as an energetic, cosmic river that flows in a positive direction throughout our lives. Flowdreaming is both a fascinating philosophy and a simple technique to help you start manifesting your future in this great energetic space. Summers powerful abilities and understanding of universal energies has been recognized by such preeminent teachers as Dr. Wayne Dyer, Gregg Braden, Cheryl Richardson, Denise Linn, Carol Ritberger, and Colette Baron-Reid. She has emerged as a leader in the field of manifesting and has been referred to as a rare teacher of the mysteries. If you enjoy writers such as Esther and Jerry Hicks, Dr. Wayne Dyer, Gregg Braden, Eckhart Tolle, or Sandra Anne Taylor, then this book is a choice find that belongs in your library. Countless people have enjoyed Summers wisdom and elegant explanations in her weekly Internet radio program on HayHouseRadio.com, and her genuine, honest assessment of manifesting in her blog at www.Flowdreaming.com. Consider this excerpt from Flowdreaming, in which Summer writes, Weve always known that the Flow is all around us. On some intuitive level, we feel its presence and know when were moving with life, just as we recognize when were moving against it. And on rare occasions though just often enough to shake us up each time it happens when we look at a sunset or up at the stars, we can even

sense that were part of the Flow; that is, made from the stuff. The Flow is both the glue that holds the cosmos together and the cosmos itself. If you have any doubt about this, just think of how often you've used the expression, Just go with the flow. Every time you've been moved to use that phrase, you've acknowledged, perhaps instinctually, that there is some life force some peculiar essence that we've caught up in and that is flowing forward into the future, and that, if we go with it, will ease our burdens and bring us to a better place. We intuit that this essence is good and pure, and we want to be flowing with it. In other words, when we're going with the Flow, we're saying that we are in fact on the right path . . . whatever that path may be. What I'm going to show you now is how you can start aligning yourself with this majesty, and in so doing, discover the explosive creative, manifestation power that is the Flow. You'll find much wisdom in this insightful book from my co-host on HayHouseRadio.com. Dr. Wayne W. Dyer
