

# MasterMinding People And Communication Skills: How To Talk, Listen, Speak in Public, Entertain, Interact With & Create Rapport With Almost Everyone ... With TOTAL Confidence ...and a Little NLP

Today marriages break up en-masse, friends and family have bust-ups that seem irretrievable, children don't talk to their parents for extended periods of time, business relationships break-up, career problems arise, battles rage in the workplace, neighbours go to war and so too do nations. Ninety nine times out of one hundred it is because of a lack of communication, an inability to communicate, or a communication breakdown. Surely that makes communication one of the most important things that you could possibly have learned at school! If not the most important thing that you will ever have to learn. This book is about that communication! I also pulls heavily on the principles of NLP, which are explained at the end of the book.
