En los últimos años han aumentado notablemente las inversiones realizadas por las organizaciones de gestión de destinos (OGD) en sitios web. Las actividades de marketing a través de Internet constituyen una parte importante de los programas operacionales de muchas OGD locales, regionales y nacionales. La International Federation for Information Technologies and Travel & Tourism (Federación Internacional de Tecnologías de la Información y Turismo, IFITT) y la Organización Mundial del Turismo (OMT) han acordado establecer conjuntamente un plan para ayudar a las OGD en la evaluación y el análisis comparativo de la calidad y eficacia de sus actividades en Internet y de la rentabilidad de sus inversiones. Este informe es una introducción al citado plan, denominado Destination Web Watch de la OMT y de la IFITT.
