

Productivity Epiphany: Become More Productive In Any Area of Life!

This book will allow you to increase your productivity in virtually any area of your life -- but not the way you might think. You won't find a success blueprint in this book; you will get one great insight after another that will stimulate your mind to think in new ways that will cause you to say ah ha! as you suddenly create your own blueprint. For the last decade, Vincent Harris has been a performance coach and mentor to CEOs, athletes, and people who want more out of life. The Productivity Epiphany was written to stir your mind, and to pull forth the resources that will help you to: persuade yourself and others to take action; experience more happiness; create stronger relationships; get more accomplished in less time; and much, much more!
