

Interdisciplinary and Multidimensional Perspectives in Telecommunications and Networking: Emerging Findings

Telecommunications plays a significant role in shaping modern information sharing and economic growth, as the global exchange of information and data has revolutionized modern business practices and social interaction. Interdisciplinary and Multidimensional Perspectives in Telecommunications and Networking: Emerging Findings offers research on new technologies, models, security issues, and telecommunications and networking applications that are informed by disciplines including electrical engineering, computer science, and information technology. Offering interdisciplinary perspectives on telecommunications and networking issues and problems, this publication provides case studies and research findings useful to researchers and students in a number of related fields.

Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
