

Quality Financial Reporting

A no-holds-barred look at the shortcomings in today's financial reporting standards and why, with a prescriptive program for change. Financial reports today have become hopelessly complex, and impossible for investors and other capital markets professionals to understand. This hurts everyone involved. Quality Financial Reporting outlines the rules for QFR, a financial reporting revolution in which essential figures are reported clearly, truthfully, and in a language that everyone can understand. Quality Financial Reporting is groundbreaking in its theory, comprehensive in its presentation, and destined to become required reading for accountants and investors alike. A long-overdue recipe for change, it provides readers with strategies and techniques for adopting a QFR standard. Relevant empirical research that supports QFR. End-of-chapter evaluation checklists and questions. Accounting is the language of business. In recent years, too often language has been distorted to the point of becoming unintelligible. This book is a step toward restoring its usefulness. Warren Buffet. Paul B. W. Miller is a professor of accounting at the University of Colorado at Colorado Springs. Paul R. Bahnson is an associate professor of accounting at Boise State University.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
