

The Calm and the Storm: Notes from a passive aggressive relationship (Volume 1)

I am sorry I have had to temporarily suspend the availability of my book. It has been a resource for support groups of domestic emotional abuse. I am very proud it has helped others identify the cycle of abuse in order to detach and leave from toxic relationships. I have literally watched people take the steps to move out and on to new chapters in their lives. Unfortunately, bullies exist in the world. I have been threatened within my own home area by people who have attempted to exploit domestic violence and me due solely for political reasons. These people have used the victim as the abuser in order to attempt to create a smear campaign. The book will be back, and edited to include a section which helps to identify and deal with bullies. I will call it Charlies corner. I will them donate the proceeds of the sales to my towns high school to support anti bullying and teen dating abuse programs. Shame on anyone who would exploit a victim for personal gain, but we know thats what bullies do; dont we?

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
