

Psychodynamic Neurology: Dreams, Consciousness, and Virtual Reality

Psychodynamic Neurology: Dreams, Consciousness, and Virtual Reality presents a novel way of thinking about the value of dreaming, based in solid comprehension of scientific research on sleep and dreams, but with deep understanding of psychoanalytic and other interpretations of dreams. This book: Surveys the remarkable history of sleep research over the past few decades Examines the neurobiology of sleep and its implications for consciousness and well-being Addresses the nature of waking and dreaming consciousness and how they are deeply related Presents the neurogenesis, function, and clinical importance of a brain-based dream theory Our dreams are a mixture of anticipated virtual as well as remembered real experience. This book tells the story of how neuroscience has helped us reach this startling and exciting conclusion and how the new scientific model builds upon and departs from the dream theories of the past.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
