

## The Reed Field Guide to New Zealand Alpine Flora and Fauna

Many people don't realise that New Zealand hosts an amazing depth of alpine fauna and flora. Included in this book are the mammals, birds, frogs and lizards, fish, insects, spiders, molluscs, shrubs, herbs, orchids, grasses and ferns that inhabit our alpine areas. In *The Reed Field Guide to New Zealand Alpine Fauna and Flora*, Brian Parkinson gives easy-to-understand information on the biology, distribution, habitat and characteristics of over 170 species of fauna and flora that live in New Zealand's alpine regions. Each entry is accompanied by a stunning photograph to make identification in the field easier for the reader.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
