

# Workflow Management Systems: Exercise Book

This book collects some written exercises and solutions from the classworks of the course Workgroup and Workflow Systems at the Como campus of the Politecnico di Milano, Milano, Italy. Throughout the book, two approaches will be presented to describe business processes: the first approach is based on the UML (Unified Modelling Language) notation (including use case diagrams, class diagrams, activity diagrams) and on the BPMN (Business Process Modelling Notation) notation; the second approach is based on the WIDE (Workflow on Intelligent Distributed database Environments) methodology, derived from the EU-funded project WIDE.

Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
