

State Taxation of Business: Issues and Policy Options

This volume is the first book-length treatment of state-level business tax issues. It addresses three broad questions: (1) How should businesses be taxed? (2) How does present practice compare with and depart from this prescription? and (3) How can present practice be improved? The contributors to the volume analyze these issues from a variety of perspectives, presenting a cross section of current thinking about states business tax policies. The work provides a conceptual framework for defining business taxes, measuring their levels and consequences, comparing interstate differences in business tax practices, and evaluating alternative business tax policies. It presents data showing current levels, trends, and interstate differences in business taxation. And it examines the political and economic rationales for taxing business and the implications of those rationales for tax policy. This analysis will be of interest to scholars and practitioners in taxation, public economics, and business finance.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
