

Survival Communications in California: LA County Supervisory District 4

Perhaps you have prepared for WTSHTF or TEOTWAWKI with respect to food, water, self-defense and shelter. But what about communication? Whenever there is a disaster (hurricane, earthquake, economic collapse, nuclear war, EMF, solar eruption, etc.), the normal means of communication that were all reliant upon (cell phone, land line phone, the Internet, etc.) will probably be, at best, sporadic and at worst, non-existent. As this author sees it, short of smoke signals and mirrors, there are three options for communication in trying times: (1) GMRS or FRS radios; (2) CB radios; and (3) ham or amateur radio. In this book he considers each of these options to come up with the most acceptable one. Included in this volume are the names and addresses of the approximately 14,700 FCC licensed amateur operators in Supervisory District 4 of LA County in California, organized by city, then sorted by street, then sorted by house number ... just in case.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
