

Murachs ADO.NET 3.5, LINQ, and the Entity Framework with VB 2008

I have read a lotta programming books in my time, and this is the best presentation and layout of a book I have ever seen. Its easy to read. Content is great. I wish I had found it first in my conversion to .NET. I am so impressed that I am checking out the other Murach titles.--Online review of the previous edition of this bookThis 3.5 edition of Murachs ADO.NET book has the same great content selection, the same paired-pages layout (please look at the Search Inside this Book excerpt to see how this works), and the same readable style that have earned 5-star reviews for the previous 2.0 edition. But its been updated throughout to show you how to handle data in VB applications using todays professional techniques. Youll begin by learning how to prototype Windows applications using drag-and-drop tools like data sources. However, the code thats generated by RAD tools like these isnt easily reusable, maintainable, or scalable. So next, youll learn how to create 3-layer applications, writing your own, more flexible ADO.NET 3.5 code. Then, the second half of the book is all NEW, introducing you to Microsofts latest enhancements for data handling. First, youll see how to use LINQ (Language-Integrated Query) to work with datasets, SQL Server databases, and XML data...tasks that require a lot more code without LINQ. Second, youll see how the ADO.NET Entity Framework lets you create an object model that provides a flexible and easy way to work with the data in a database by mapping custom business objects used by the application to objects in the database...another way to let .NET do more of the work for you.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just to good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days

the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
