

Heritage of the Illuminati

Heritage presents one of the most controversial insights into secret societies, and Illuminati conspiracy theories ever written. Joshua Seraphim provides a masterful survey and commentary on the development of Freemasonry, Fraternity of the Rosy Cross, secretive Christian monastic orders, and Islamic secret societies still in existence today. Conspiracies and their producerist personalities are debunked as fraudulent, as Seraphim unexpectedly reveals why the Illuminati are indispensable to human evolution. Contemporary occult organizations and projects all get a name check, and are taken to task. Heritage of the Illuminati concludes with Seraphim's account of personal experiences in secret societies, and his witness to a shocking display of their power in Germany and Egypt.
