

Rising Inequality in China: Challenges to a Harmonious Society

This book, a sequel to *Inequality and Public Policy in China* (2008), examines the evolution of inequality in China from 2002 to 2007, a period when the new harmonious society development strategy was adopted under Hu Jintao and Wen Jiabao. It fills a gap in knowledge about the outcomes of this development strategy for equity and inequality. Drawing on original information collected from the recent two waves of nationwide household surveys conducted by the China Household Income Project, this book provides a detailed overview of recent trends in income inequality and cutting-edge analysis of key factors underlying such trends. Topics covered include inequality in education, changes in homeownership and the distribution of housing wealth, the evolution of the migrant labor market, disparities between public and non-public sectors, patterns of work and non-work, gender, ethnicity, and the impacts of public policies such as reforms in taxation and social welfare programs.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
