

Magpie Rising: Sketches from the Great Plains

The rolling, billowing, delicate landscape of Nebraskas Sandhills; the tombstone of Billy the Kidstolen so often that it must be caged and shackled in Fort Sumner, New Mexico; an intercontinental ballistic missile trundling down a highway under heavy guard in Weld County, Colorado; cottonwoods and cranes, faded hotels and abandoned trailers painted aqua and purple; the ghosts of Pawnees, Cheyennes, and Kiowas and generations of settlers whose descendants now grouse in a cafe in Heimdahl, North Dakota, or roar off to a bikers convention in Sturgis, South Dakota. These are some of the things that catch Merrill Gilfillans eye and ear in this radiant collection of essays. Written with a poetic economy that often attains grandeur, *Magpie Rising* is an exhilarating tour of the Great Plains its geography, wildlife, history, mythology, and food, its vast spaces and weirdly synchronous time. This is nature writing at its most evocative and insightful.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
