

## Maps on File (Maps on File (Updates))

The 2008 Update is an excellent way to keep users abreast of global changes. A supplement containing 25 to 40 replacement maps and a new cumulative index, the Update allows those who have recently purchased a complete edition of Maps on File to keep the collection as current as possible.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
