

Rain Boy: Conversations with an Autistic Son

Based upon data solicited between 2006 and 2008 the CDC has reported that the prevalence of developmental disorders among US children was 1 in 6 and Autism Spectrum Disorder 1 in 88. We should expect that these special kids will eventually touch each of our lives. Over a number of years, the author of Rain Boy has shared short anecdotes highlighting his sons disabilities, challenges, savant, and more in personal conversations and e-mail with his siblings and selected close friends.

These scenarios highlight some of the characteristics of autism while unveiling the raw charm, gentility, humour, and sadness that can surround those with such disabilities. These anecdotes will provide validation for family, friends, counsellors, therapists, and other providers of those with similar limitations and may be an introductory and entertaining immersion for a more general audience. Rain Boy has a refreshing focus and serves as a celebration of the gifts yet challenges of a child and young man with autism. Walk with this father as he more publicly shares his conversations and companionship with his autistic son.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
