

Dream Interpretation: A Comparative Study

This is a book on the theory and technique of dream interpretation. Throughout, the theory of dream interpretation has been emphasized, in contrast to the theory of dream formation, and its relationship to the analytic process. Psychotherapists of all persuasions will find this investigation of six approaches useful in expanding and deepening the understanding of people through their dreams. The interested lay person too, will benefit and potentially increase their understanding of their internal life.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
