

Perspectives on Memory Research (PLE:Memory): Essays in Honor of Uppsala University's 500th Anniversary (Psychology Library Editions: Memory) (Volume 19)

Originally published in 1979, this book contains papers presented at a conference held in 1977 to celebrate the 500th anniversary of the University of Uppsala. Beyond the commemoration, the main reason for this conference was to get students of memory together to discuss and evaluate the memory research that had already been carried out, was presently underway and to speculate about the type of research in this area that would be carried out in the future. The contributors were specifically asked to concentrate on overall theoretical and metatheoretical questions at the cost of empirical problems. With chapters from many of the leading experts in the field this is an opportunity to enjoy some of their early insights.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
