

The Rape of Angelina of Glastonbury, 1199 AD: [The Green Knight]

This is a story of suspenseful revenge. Where the hideous crime of a young 13-year-old girl gets raped and has to face some disturbing but reassuring decisions. In doing so, there becomes not only desensitization in her revenge to the rapists, but a psychological blocking of the events. The story takes place in Glastonbury England, after the 3rd Crusades, in AD 1199. The story takes you on a riveting edge of a quest to gain her life back, the one she lost; the one the rapists took away. The question is, can she get it back, and if so, how? On top of the Tor of Avalon, but a few hundred yards from the town, is a man who ends up talking to an elder resident who helps him unravel this ancient mystery of sorts, as he shares Angelina's Diary. The visitor, being a qualified psychotherapist, gives him his analysis of why, which may even help the elder in his understanding.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
