

# Internet Marketplaces: The Law of Auctions and Exchanges Online

Internet Marketplaces explains and analyses the legal questions and challenges posed by the increased use of online auctions and exchanges for business transactions. Rather than focusing on internet businesses as a whole, the author studies the rules related to closed internet marketplaces where commercial dealings are carried out. The book provides a detailed analysis of the new business models that are being employed, their legal structures, and the extent to which further work is still required to fill in the legal infrastructure. Professor Ramberg is well known for her expertise and involvement in this field, and the book will prove to be useful to fellow practitioners as well as being a key reference for academics working in this area.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
