

Tourism and Sustainable Community Development (Routledge Advances in Tourism)

As the tourist industry becomes increasingly important to communities around the world, the need to develop tourism in a sustainable manner has also become a primary concern. This impressive collection of international case studies addresses this crucial issue by asking what local communities can contribute to sustainable tourism, and what sustainability can offer these local communities in return. The role of the community in environmental, cultural and economic sustainability is highlighted in an extraordinary variety of contexts, ranging from inner-city Edinburgh to rural northern Portugal and the beaches of Indonesia. Individually, the investigations in this text present a wealth of original research and source material, while collectively, they illuminate and clarify the term community - the meaning of which, it is argued, is vital to understanding how sustainable tourism development can be implemented in practice.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
