

## Mental Potentials Create Many Realities or Many Worlds

This book is the compilation of a research paper which creates a new understanding of space which includes an explanation of mental spaces, energy fields, and multi-dimensional space potentials. This brand new explanation of space and space behavior(s) creates a context for understanding mechanisms which enable the observer to transform his/her physical reality through a matter-wave interaction which is driven by mental potentials or mental energies. This mental interaction explains many mysteries of the mind such as Dreams, Divination, ESP, Telekinesis, Clairvoyance, and Telepathy. The paper also creates a new model of the conscious mind and the subconscious mind; and, provides a scientific explanation for the existence of mental powers and mental abilities. This research also creates a mathematical basis in order to explain mysterious phenomena in the universe such as Alien Intelligence, Hidden Dimensions, Parallel Universes, and The Nature of Time. This paper also delves into the Existence of Atoms, Einsteins Equivalence Principle, and General Relativity ... in order to provide a context which addresses the observer as a part of the large system which we consider the universe. The result is a new understanding of space, time and energy.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
