

# The God-Shaped Brain: How Changing Your View of God Transforms Your Life

What you believe about God actually changes your brain. Brain research in neuroscience has found that our thoughts and beliefs affect our physical, mental and spiritual health. Mind and body are interrelated, and we are designed for healthy relationships of love and trust. When we understand God as good and loving, we flourish. Unfortunately, many of us have distorted images of God and mostly think of him in fearful, punitive ways. This leads us into unhealthy patterns of self-defeating behaviors and toxic relationships. But our lives can change when God renews our minds with a truer picture of him. Psychiatrist Tim Jennings unveils how our brains and bodies thrive when we have a healthy understanding of who God is. He dispels common misconceptions about God and shows how different God concepts affect the brain differently. Our brains can adapt, change and rewire with redeemed thinking that frees us from unnecessary pain and suffering. Discover how neuroscience and Scripture come together to bring healing and transformation to our lives.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
