

Dreams of Red Wizards/Module Fr6 (Advanced Dungeons and Dragons Forgotten Realms Accessory)

The Red Wizards of Thay. As cruel and horrible as they are powerful, they have ruled their eastern realm for as long as any sage can remember. They can be powerful allies, or deadly enemies. The Red Wizards know the darkest secrets of the strongest magic, and will sell their skills to the highest bidder. Thay is a land of slavers and tyrants, of intrigue and murder, of danger and opportunity. In this book, the government, personalities, economy, cities, people, and wilderness of Thay are described for an AD&D campaign of any size or level. Dreams of the Red Wizards also includes new spells and magical items unique to the Red Wizards, plus a four-color map of Thay that can be added to the previously published maps of the Forgotten Realms!

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
