

Mission (Indigo Love Spectrum)

Verena Tovick-Ra, beautiful, bronze explorer as well as the princess of Vixen had been sent out on many missions before.

This present mission, more important and more simple than all the others, had developed into a lengthy, complex, tormenting situation. Lengthy, for it took longer than anticipated to find a planet that sustained compatible males for the Sisters of Vixen to obtain as mates. All their men had died suddenly by a mysterious plague they could not cure. Complex were their dealings with the males of Earth they had obtained. Converting their ship into a workplace had been simple, making them believe that they were still on Earth instead of flying through space toward their new destiny was easy. Getting used to their large size and manner was another matter. These males actually thought that they were equal to females, and worse yet, should be treated with higher regard! Verenas dealing with the one male who had been watching them before they left Earth and knew of the abductions was the most complex of situations. Jordan Mitchell, pale, large and bulky was determined to get back to Earth. Of course he could not return. He was her future mate. Jordans resistance was the last factor of this most difficult trip. Having marked him as her own and not following with the traditional Ceremony of Unity Verenas very life was at risk. Add to that an unwarranted attacked by a neighboring planet resulting in a forced alliance with their new mates as they fight against a conspiracy toward Vixen. Where will it all lead?

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
