

Glacier National Park (Postcard History Series)

Pres. William Howard Taft signed the bill creating Glacier National Park in 1910, and a wilderness paradise in northwestern Montana was born. This book illustrates the parks evolution, from the Great Northern Railroad days, Native American presence, lodges, chalets, and camps, to majestic scenery and wildlife--all in vintage postcards. The opening of Glacier National Park coincided with the popularity of postcards across the nation, and hence this visual documentation of Glaciers many wonders is thorough and encompassing. With the celebration of its centennial in 2010, Glacier National Park continues to provide us with one of the last best places to visit.
