

## Yoga for Individual Practice

The author has studied and practised extensively and intensively about spirituality and Yoga. He has also achieved a good scientific understanding the subject. One does not have to go by blind belief. A proper amalgamation of science and spirituality is the solution to the existing havoc in the world, this can bring everlasting peace and prosperity to the people of this world. According to the author spirituality deals with the unseen and non-material aspects of individual that is mind, thoughts, soul and so on. This is as much subject to law as everyday science which deals with matter. One can have plenty of money, but if one does not have the health and happiness, therefore, it is of no use to possess any wealth. Everyone craves after health and happiness, but few have it. In the search for health and happiness, we are tortured by a sense of inadequacy, frustration, anger, panic or inertia. Whether the systems are faulty or the philosophers are in a labyrinth of intellectual chaos, it is clear that humans have been frustrated or disillusioned in their pursuit of fame, name and wealth. Here the author as well recommends a return to the wisdom of the ancients, the wisdom that has influenced deeply the lives of millions down the ages. It does not contain obscene theories nor advocate fatalism, a common misconception about Eastern philosophers but reaffirms the responsibility as individual, the goals in life and offers man the spiritual tools to attain them. This book is an unexpected journey beyond modern concepts, for the confused or depressed, blueprint for enlightenment happiness and health. It is based on intensive research. Yoga for individual practice, is at the same time an exciting original book that can actually change ones life. Only a reading of it can show its spiritual value.
