

Performance Anxiety: Creating A Fortune Investing In Non-Performing Real Estate Loans

Performance Anxiety is a story for those who believe that adversity creates opportunity and that small fortunes can still be made by those who can think out of the box and are willing to do what it takes to persevere and turn creative ideas and concepts into a successful new reality. Rarely in my experience has the small independent investor had the chance to compete with the big guys - and with relatively small amounts of capital and risk - and beat them at their own game. Let this small book - a high level story of my own successful journey - introduce you to a concept and strategy that most of the most sophisticated financiers in the world do not understand. This book is for every small investor in the world who never conceived they had a chance to compete and win against the established financial industry. It is for those with only a relatively small amount of seed capital who have always dreamed of financial independence - but could never find a legitimate strategy to achieve that goal in a short amount of time.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
