

Viral Spiral: How the Commoners Built a Digital Republic of Their Own

A stunning narrative history of the emergence of electronic free culture, from open-source software and Creative Commons licenses to remixes and Web 2.0 in the tradition of Lawrence Lessig's Free Culture. A world organized around centralized control, strict intellectual property rights, and hierarchies of credentialed experts is under siege. A radically different order of society based on open access, decentralized creativity, collaborative intelligence, and cheap and easy sharing is ascendant. From free and open-source software, Creative Commons licenses, Wikipedia, remix music and video mashups, peer production, open science, open education, and open business, the world of digital media has spawned a new sharing economy that increasingly competes with entrenched media giants. Reporting from the heart of this free culture movement, journalist and activist David Bollier provides the first comprehensive history of the attempt by a global brigade of techies, lawyers, artists, musicians, scientists, businesspeople, innovators, and geeks of all stripes to create a digital republic committed to freedom and innovation. *Viral Spiral* the term Bollier coins to describe the almost-magical process by which Internet users can come together to build online commons and tools brilliantly interweaves the disparate strands of this eclectic movement. The story describes major technological developments and pivotal legal struggles, as well as fascinating profiles of hacker Richard Stallman, copyright scholar Lawrence Lessig, and other colorful figures. A milestone in reporting on the Internet by one of our leading media critics, *Viral Spiral* is for anyone seeking to take the full measure of the new digital era.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion,

Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
