

General HACCP and Food Safety Training: Condensed Safety Training/Refresher/HACCP

Deliver this condensed HACCP training once or twice a year to keep your staff up to date with safety measures in food service. I was tired of 2 hours sessions with our HACCP binder and condensed all the material into a few pages that can be reviewed as a team in a few minutes and still meet your ongoing safety training requirements. This saves us a lot of time in our safety training. You can even just read one small section on different days to spread out your training and keep it fresh on everyone's mind.

My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
