

## Masai Mara 2015: Animals and Landscapes of the Masai Mara in Kenya (Calvendo Nature)

Expressive photographs of wild animals and landscapes of East Africa. All pictures were taken during a 5-day safari in the Masai Mara Game Reserve in August 2013. The Masai Mara is one of the regions of Africa with the richest populations of wild animals. It is famous for the Great Migration from the Serengeti with hundreds of thousands of wildebeests and zebras crossing the Mara River each year. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
