

Data Center Infrastructure Designs: From Server Connectivity to High-Speed Network Security (Data Center Design Case Studies Book 2)

The second part of the Data Center Design Case Studies series describes data center infrastructure design challenges, including:

- * Designing a private cloud network infrastructure;
 - * Redundant server-to-network connectivity;
 - * Replacing the central firewall with a scale-out architecture combining packet filters, virtual inter-subnet firewalls and VM NIC firewalls;
 - * Scale-out private cloud infrastructure using standardized building blocks.
- Design scenarios described in the book are based on dozens of consulting engagements solving real-life customer challenges.

NEWAGEOFTRUTH There's been too many lies and not enough truth stay updated via rss MY NEW PLAYLIST Why are some looking forward to the end of days? Posted: July 26, 2016 in Cheating, Education, Evil, Politics, Religion, Social Issues Tags: Armageddon, bible, Christianity, Conspiracy theory, Prophecy, Y2K 0 end of days Some temptations are just too good to pass up. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
