**THE TRAUMA TRAP: Are you tired of getting nowhere therapy? Tired of the recall yet fearful treatment may make you worse. The Rewind Technique will give you a 90% chance of closure.**

Completely Revised in 2013. You physically escaped and survived your trauma but your mind is still there, trapped!

The recall of your Trauma is forever in front of you, yet what you did last week is a blurr! Odd isnt it or is it.? The reason is that the traumatic event has not been allowed into memory proper. It is always in the waiting room as it were. With the treatment technique I am showing you in this book, the recall will slip into memory proper and you will be free to live your life again. Of course,like all memories which are in the right place, you may recall them if you wish, but no more unwanted recall which is easily triggered by so many things: sounds, smells, images coming at you from anywhere.I am DR.DAVID MUSS- Director PTSD Unit Birmingham UK. Originator of the Rewind Technique for PTSD and founder of the International Association for Rewind Trauma Therapy. My curiosity got the best of me the other day and I gave in by watching one of those "End of the World" conspiracies videos. This time around the date is set for July 29, 2016. So in three days the biblical prophecies will come true and we will be swallowed up by hell fire while the others who are "saved" will rejoice in the heavens.
